

<b>ESET NOD32 Antivirus 4 Business Edition - Key Features</b>	
<b>Smart detection</b>	ESET NOD32 Antivirus uses proactive detection technology to identify malware, providing your system with around the clock protection.
<b>Proactive detection</b>	NOD32 Antivirus relies on advanced heuristics as well as generic and genetic algorithms to detect new malware and new mutations of known malware.
<b>Extremely light system footprint</b>	ESET NOD32 Antivirus is so light your users will not even notice it's running.
<b>Advanced archive scanning</b>	Threats don't always enter where you expect. ESET NOD32 Antivirus can scan layers of compressed files to ferret out malicious software. Users can control search depth, file size, archive size and timeout of archive scans.
<b>Encrypted communication control</b>	Scanning SSL-encrypted HTTP and POP protocols defeats even threats that hide from plain sight.
<b>Enhanced portable computer support</b>	Enhanced settings for portable computers allows tasks to be postponed when the computer is running on battery power.
<b>ESET SysRescue</b>	Creates rescue CDs, DVDs or USB drives for cleaning unstable, infected systems.
<b>ESET SysInspector</b>	Integration Administrators will love our advanced diagnostic tool for taking "deepdive" snapshots of systems. Files and processes are colour coded in scan logs to make it easy for IT administrators to identify potential threats in the system.
<b>Uninstall password protection</b>	Password protection prevents ESET NOD32 Antivirus from being uninstalled by unauthorised employees or visitors.
<b>ESET self defence and HIPS</b>	ESET NOD32 Antivirus has built-in technology to prevent malicious software from corrupting or disabling it. Unauthorised attempts to modify your OS or applications are actively blocked through a combination of advanced behavioural analysis and network filtering that monitor your system processes, files and registry keys.

<b>Removable media access control</b>	Protects against infections from USB drives, floppies, CDs and DVDs.
<b>Improved cleaning</b>	Cleaning of certain difficult to remove infections has been significantly improved.
<b>Support for Cisco Network Admission control</b>	Regulatory compliance is simplified with native support for Cisco NAC.
<b>Mirror updating</b>	Mirror servers make it easy to manage distribution of signature database updates to all ESET products within the network, saving you valuable time and bandwidth.

**ESET NOD32 Anti-Virus 4 Business Edition**

## Key Features Quick Reference Chart

Segment	Business Segment
Number of Workstations	5 - ∞
Suggested Products	ESET Mail Security, ESET File Security, ESET Gateway Security, ESET Mobile Anti-Virus
<b>KEY BENEFITS</b>	
High Detection Rates	✓
ThreatSense Heuristics	✓
Fast Scanning Speed	✓
Low System Footprint	✓
